RANGES FROM THE HOUSE OF

Hego

# WHY CHOOSE HEGO ROYAL TURF ?

That's a question we will gladly answer. We strongly believe in high standards for quality, sustainability and pleasure. Of course, we know that you will not even consider artificial turf unless your neighbours cannot see the difference between artificial and natural. Well, we have got good news for you.

## **This is what we offer :**

- The premium feel of natural looking artificial grass .
- Our Authorized Dealers have been selected on their skills and passion for landscaping.
- Proved quality and reliability
- Safe for the environment and respect for nature
- Easy installation and cost – effective grass turfs.
- The latest technologies and innovations of UV Defender which makes our grass colour fast even in strong sunlight areas.

## HEGO ROYAL TURF HG-40

Hego Royal Turf HG-40 is a beautiful summer green lawn turf, which fits in well with our climate, both in summer and winter. The mix of green and beige-coloured blades of grass lends it a natural appearance. With a length of 40 mm, the artificial lawn look luxurious and well kept. Most importantly, it feels incredibly soft and resilient under your bare feet.

HEGO ROYAL TURF HG-40

## HEGO ROYAL TURF R-40 GREEN

The colour of Royal Turf R -40 Green is summer green. The turf is also filled with both emerald green & earthy green fibers. This reinforces the natural effect in two ways. It has an effect on the position of the fibers. Through its colour, the small fibers fill gives the grass an additional nuance.. This is precisely what lends the grass its natural look. The result is that Hego Royal Turf R -40 Green feels wonderfully soft and is a pleasure to walk through barefoot!

Hego Royal Turf R -40 Green is the perfect lawn substitute, suitable for small gardens types.

# APPLICATIONS - HEGO ROYAL TURF

## GARDEN GRASS

A beautiful and well maintained lawn, in your residence. Now stop worrying of watering & mowing . Very suitable in extreme drought, mossy or shady environments. Children and pets love it as well!

## BALCONY, TERRACE AND PATIO

Add colour and atmosphere to your balcony or patio. Walk on Royal Grass bare feet, enjoy the nice weather on a perfectly green terrace.

## GREEN ROOF

Enjoy a year-round green roof terrace, maintenance free. More time to spend on more important things.

## PLAYGROUNDS WITH ARTIFICIAL GRASS

A safe all-weather playground in the summer and winter. Looks like natural grass, but in a better condition with no holes, no mud and fast drying. Artificial grass is always invitingly green.

## INDOOR OR DECORATIVE

Artificial grass is often used as decoration for offices and exhibitions. Be creative: it can even be used in your child's bedroom...turn it into a jungle!

## PUBLIC LANDSCAPING

Royal Grass is suitable for places where ordinary grass will normally not grow, in any location. It's a low-cost and environmentally friendly solution because it doesn't need water and practically no maintenance. Durability guaranteed.
