HEXAGON
THE NEXT GEN CARPET TILE

THERE ARE SIX SIDES TO EVERY CONNECTION

Hexagon reflects the cultural shift toward more collaborative environments - influencing the ways we work, walk, communicate and create. It will change the way you move through a space, veer you off the beaten path and encourage collaborative chemistry.
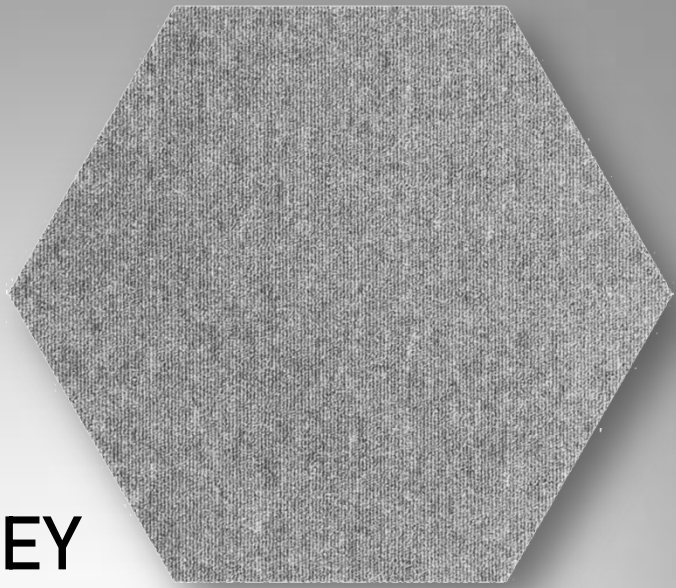

Build a social hive. Form new communities.

Technical Specifications

Construction –Tufted Level Loop
Material –100% Polypropylene
Pile Weight –580 GSM
Pile Height –4–5 mm
Primary Backing –Non Woven
Backing PVC Backing
Size –17" x 20"
{ 43.18cm (H)x50.8cm DIA x 25cm
Qty. in Box –20 PCS /3.24 SQ. MTR
Area of Use –Commercial Heavy Duty

INSTALLATION GUIDE

monolithic   random   diagonal

- The starting point in a modular installation must be as near to the center of the room as possible
- Snap perpendicular chalk lines that intersect at the center of the room. Verify 90° angles with a laser square or a 3-4-5 triangle.
- An optional third chalk line can be snapped 14 3/8" from the first chalk line to assure tile placement.
- Test a dry-install for pattern layout and placement.
- Starting on center, install tiles in a monolithic, diagonal, or random pattern..
- Flow into the adjacent quadrants outward toward the perimeter walls. When installing at the perimeter walls, make perimeter cuts at this time.
